

Studies have shown that textiles serve as sites for bacterial contamination. There are limited antimicrobial textile solutions that are both durable and effective against a broad range of bacteria and viruses. Biosmart Face Masks are a textile technology that binds chlorine to the fabric surface. Recharges after every wash with EPA-registered chlorine bleach. Chlorine Bleach kills 99.9% of many common bacteria and viruses.

Chlorine\* molecules bind to fabric treated with BioSmart  
\* EPA registered chlorine bleach
