Dry skin relief for dry, chapped hard working hands.

Aloe Vera

Anti-inflammatory and cooling properties, Aloe Vera moisturizes, can accelerate wound healing, fights aging, great for sunburns, and has more great properties than we have space to mention. We use natural aloe-vera that has been concentrated 200X!

Lanolin

The soothing, moisturizing and healing effects of lanolin have been well known for many years. Lanolin oil is extracted from sheeps wool, and is best known for use in extremely dry and cracked skin including heels. Lanolin falls into the lipid-rich emollient class of moisturizers. One of the causes of dry skin is a lack of lipids, which allows water to escape. Lanolin fills in those gaps, preventing future water escape.
