

UTILITY SERVICES COVID-19 DISINFECTANT

Ready to use straight out of the bottle, no need to dilute, no harsh chemicals such as bleach and is harmless to humans, animals and the environment. **Just spray and your done.**

Kill COVID-19 ENVIROCLEANSE-A

Stop Outbreaks & Kill Viruses. Envirocleanse-A (ECA) is an effective disinfectant that can quickly and easily eliminate surface viruses such as COVID-19. ECA is non-corrosive, non-toxic, non-flammable, naturally breaks down into a saltwater solution after degrading and is harmless to the environment, humans and other warm-blooded animals.

LETHAL TO EVERY PATHOGEN KNOWN TO MAN BUT HARMLESS TO HUMANS, ANIMALS AND THE ENVIRONMENT

WHAT IS ENVIROCLEANSE-A (ECA)?

Envirocleanse-A (*Hypochlorous Acid or HOCL*) is a disinfectant that is **100 - 300 times more effective than bleach** - yet is non-toxic, biodegradable and non-irritating. Envirocleanse-A is a light oxidizer which destroys bacteria by robbing bacteria of its electrons, killing pathogens in seconds.

Although called an "acid" - Envirocleanse-A isn't actually acidic. It's **PH is neutral (7PH)**, which is the same as water. ECA is composed of the same substance that white blood cells use to fight off infections, heal wounds and is FDA approved to keep produce fresh, including for use in organic crop production.

100% Allergen-Free as certified by the Mayo Clinic SkinSafe product safety rating system.

AVAILABLE SIZES

1L (32 oz)

3.79L (1 Gal)

1L (32 oz) SPRAY BOTTLES: 8" x 8" x 12" (20.32 x 20.32 x 30.48 cm)
