

US Patent Pending

# INFLATABLE CONTAINMENT TANK™

The Inflatable Containment Tank™ (ICT) is a pop-up containment pool that inflates in an instant and can hold up to 100 gallons. Packed in a 16" x 14" x 3.5" bag, the ICT is a portable spill solution for trucks and equipment short on space.

## FEATURES

- Contains up to 100 gallons
- Safety release valve vents excess air
- Pressurized self-supported side walls
- Easy pull ripcord deployment

Manufactured by

[andax.com](http://andax.com)

Distributed by

[www.linestar.ca](http://www.linestar.ca)

## Short on space?

When folded, the ICT fits in a case that is only **16" x 14" x 3.5"**

## Contain up to 100-Gallons

Nothing so small has ever contained so much. Expands to 60" Dia. x 10" H

US Patent Pending  
**INFLATABLE CONTAINMENT TANK™**

**REUSABLE**

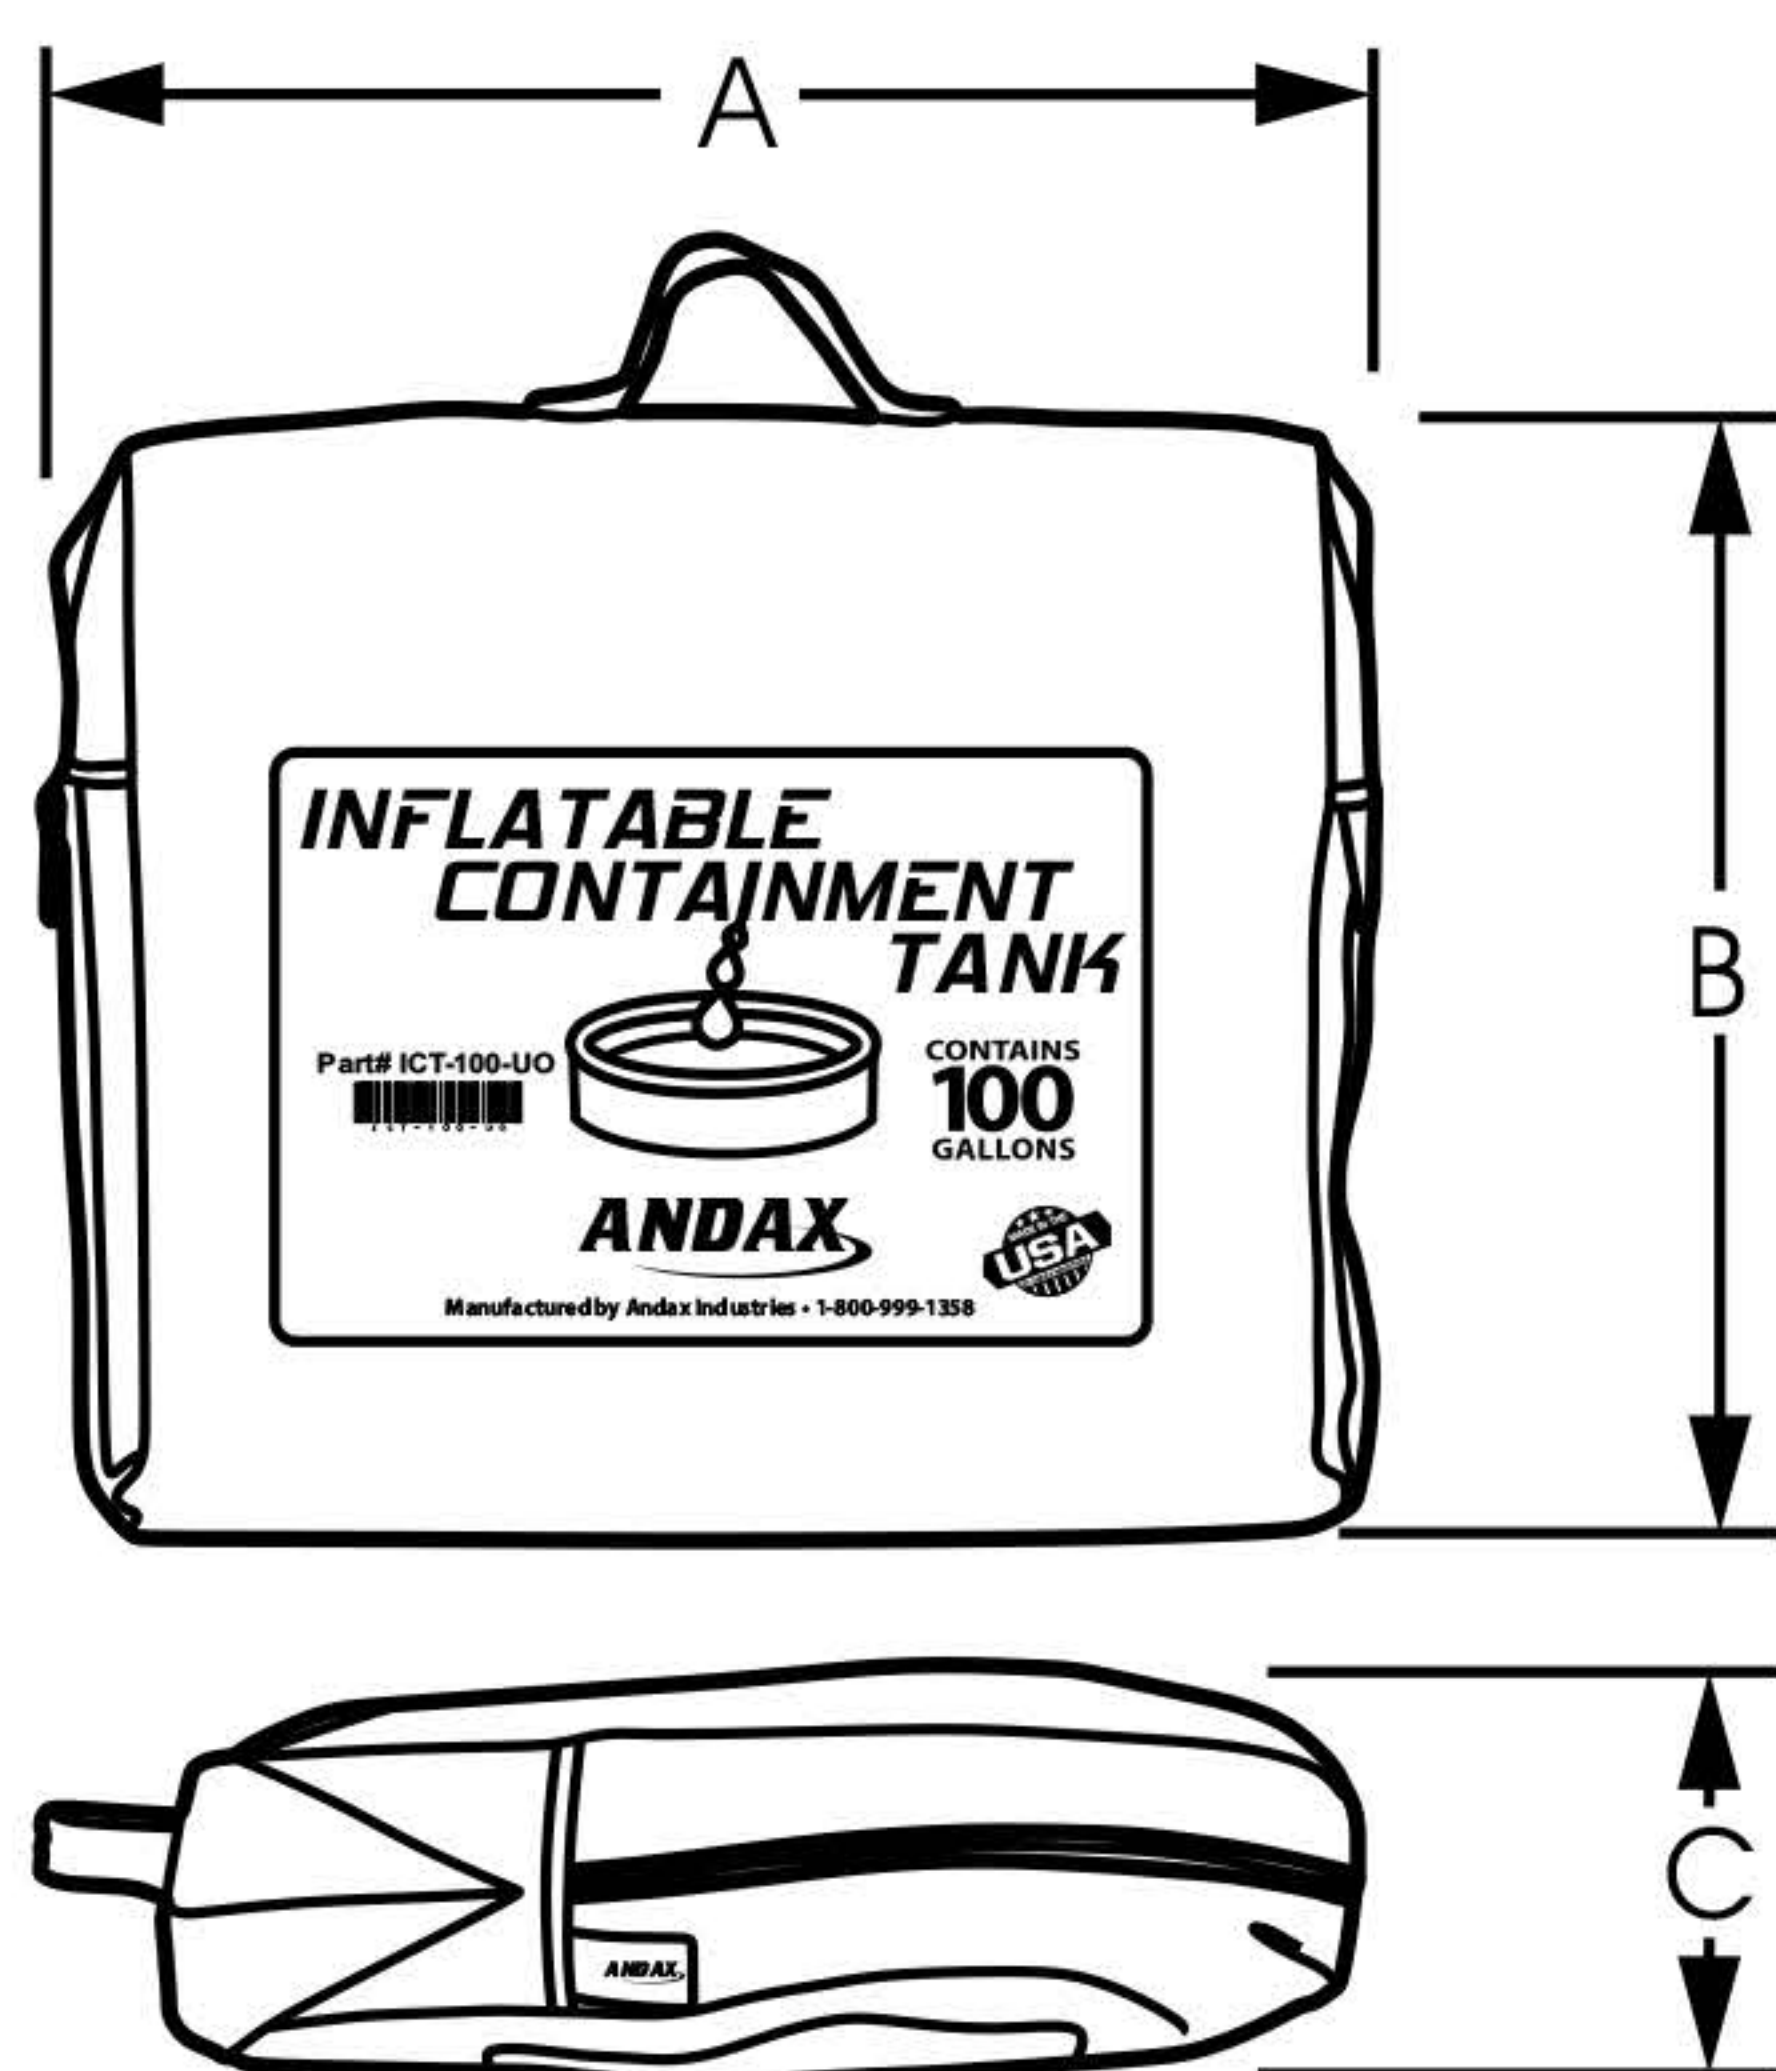

The Inflatable Containment Tank™ (ICT) can be wiped clean and stored in the soft carrying case for future use. Additional CO2 cylinders (Part # ICT-RC-38G) are available for purchase.

**PARTIAL CHEMICAL COMPATIBILITY LIST**

- |                    |                          |                        |                       |
|--------------------|--------------------------|------------------------|-----------------------|
| Acetic acid        | Ethylene glycol          | Palm oil               | Sodium fluoride       |
| Aluminum chloride  | Formic acid              | Phosphoric acid        | Sodium hypochlorite   |
| Aluminum hydroxide | Gallic acid              | PCBs                   | Sodium nitrate        |
| Ammonium chloride  | Gasoline                 | Potash                 | Sodium sulfate        |
| Ammonium nitrate   | Hydrogen peroxide        | Potassium chloride     | Stearic acid          |
| Ammonium phosphate | Isopropyl alcohol        | Potassium hydroxide    | Sulfuric acid         |
| Boric acid         | Kerosene                 | Potassium hypochlorite | Sulfurous acid        |
| Calcium bisulfite  | Linseed oil              | Potassium iodide       | Tartaric acid         |
| Calcium chloride   | Lube oils                | Potassium nitrate      | Tetrachloroethylene   |
| Calcium oxide      | Magnesium chloride       | Potassium permanganate | Tetrahydrofuran (THF) |
| Carbonic acid      | Magnesium hydroxide      | Silicic acid           | Transformer oil       |
| Citric acid        | Magnesium sulfite        | Silicone oil           | Trisodium phosphate   |
| Coal Tar           | Mineral oil              | Silver nitrate         | Urea                  |
| Copper chloride    | Naphtha                  | Sodium borate          | Vegetable oils        |
| Copper sulfate     | Nickel sulfate           | Sodium chloride        | Whiskey               |
| Crude oil          | Oils and fats, vegetable | Sodium cyanide         | Zinc chloride         |
