

# The Shotgun Loop

Designed for use with Shotgun and Clamp sticks, The Sloan Shotgun Loop is perfect for grabbing cables when feeding new services in pad-mounted cabinets. Designed by a lineman for linemen, this patent pending tool is a must have for anyone using a Shotgun stick.

## Benefits:

- The Loop allows a better working position from a standing upright perspective bettering the lineman's field of vision and awareness of his or her surroundings.
- 4,200lbs-Minimum breaking strength. Durable Fluorescent coated aircraft cable.
- Less strain on muscles by using the push/pull method.
- The Loop adapter has the capability to fully retract the full length of the operating shotgun stick mechanism to help grip objects to it's full potential.
- Full control being able to guide the wire as it is pushed or pulled.
- Another form of protection being that it is used with a tested high voltage shotgun stick.
- It is also designed to pick up tools that have fallen into a cabinet. (Pliers, Wrenches, Wire Strippers, Knives, ETC.)
- It lowers the risk tremendously of the possibility of electrical contact.

*The adapter slides into the shotgun stick retractable hook.*

*The adapter is then able to be locked into place*

*The Shotgun Loop fully retracted.*
