

ADJUSTABLE BUSHING & EQUIPMENT COVER // MEDIUM

BC-D02

PRIMARILY USED FOR ANYTHING LARGER THAN A STANDARD TRANSFORMER BUSHING. This is the only adjustable equipment cover for substation and distribution applications that is designed to be installed via hotstick or glove without requiring any locking pins.

**LOCKING

MEDIUM
BC-D02

SMALL
BC-D01

Shed Diameter	≤ 5.5"	≤ 4"
Rod Diameter	≤ 3"	≤ 2.5"
Height	≤ 8"	≤ 6"

This cover insulates a variety of fixtures and reduces the complexity of logistics that comes with stocking additional SKUs - it replaces at least 32 other models supplied in the industry today.

- > Hotstick or glove install - no locking pins needed
- > Multiple hotstick attachment points
- > Eye-screw adjusts to the size of the equipment for a tight and secure universal fit
- > Overlapping fingers ensure no push through entry after closed
- > Multiple entry and exit options
- > Full topside closure for superior salt, air pollution, dust, and other contaminate protection
- > V-0 certified proprietary FR UV polymer
- > Secure in high winds (≥120 mph) for sustained periods
